

THE ANNALS of STATISTICS

AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS

Articles

Nonparametric inference for a family of counting processes	ODD AALEN	701
Jackknifing maximum likelihood estimates	JAMES A. REEDS	727
Empirical Bayes estimation of a distribution (survival) function from right censored observations	V. SUSARLA AND J. VAN RYZIN	740
Large sample theory for a Bayesian nonparametric survival curve estimator based on censored samples	V. SUSARLA AND J. VAN RYZIN	755
Deriving unbiased risk estimators of multinormal mean and regression coefficient estimators using zonal polynomials	JIM ZIDEK	769
Generalized Bayes estimators in multivariate problems JAMES O. BERGER AND C. SRINIVASAN		783
Estimation of a multivariate mode	THOMAS W. SAGER	802
Asymptotic efficiencies of sequential tests II	ROBERT H. BERK	813
Complete class theorems derived from conditional complete class theorems	MORRIS L. EATON	820
Reduced U-statistics and the Hodges-Lehmann estimator B. M. BROWN AND D. G. KILDEA		828
One-sample rank tests under autoregressive dependence	W. ALBERS	836
Solutions to empirical Bayes squared error loss estimation problems RICHARD J. FOX		846
On asymptotically efficient recursive estimation	VÁCLAV FABIAN	854
Admissible representation of asymptotically optimal estimates	H. STRASSER	867
Strong approximations of the quantile process	MIKLÓS CSÖRGÖ AND PÁL RÉVÉSZ	882
Monotone dependence	GEORGE KIMELDORF AND ALLAN R. SAMPSON	895
Testing a linear constraint for multinomial cell frequencies and disease screening	JEROME H. KLOTZ	904
Optimality and almost optimality of mixture stopping rules.	MOSHE POLLAK	910

Short Communications

Risk estimate optimality of James-Stein estimators TERRY MOORE AND RICHARD J. BROOK		917
On the asymptotic efficiency of strongly asymptotically median unbiased estimators	R. MICHEL	920
A note on the Edgeworth expansion for the Kendall rank correlation coefficient	W. ALBERS	923
A monotone unimodal distribution which is not central convex unimodal	DANIEL R. WELLS	926
Lower bounds for nonparametric density estimation rates DAVID W. BOYD AND J. MICHAEL STEELE		932

Notes

Addendum to "The strong uniform consistency of nearest neighbor density estimates"	L. P. DEVROYE AND T. J. WAGNER	935
