

**BULLETIN OF THE BELGIAN  
MATHEMATICAL SOCIETY  
SIMON STEVIN**

**CONTENTS – Vol 21, No 4 (2014)**

|                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Y. FENG – W. WANG – J. YUAN. Differences of Quermass- and Dual Quermassintegrals of Blaschke-Minkowski and Radial Blaschke- Minkowski Homomorphisms. | 577 |
| S. CHAUHAN – E. KARAPINAR. Some integral type common fixed point theorems satisfying $\phi$ -contractive conditions.                                 | 593 |
| Y. YE – C.-L. TANG. Existence and multiplicity of periodic solutions for some second order Hamiltonian systems.                                      | 613 |
| J. ROTH. Spinors and isometric immersions of surfaces in 4-dimensional products.                                                                     | 635 |
| J.R. DE MORAES – P.R. DA SILVA. Piecewise Linear Systems with Closed Sliding Poly-Trajectories.                                                      | 653 |
| D. BLANC – D. SEN. Realizing homotopy group actions.                                                                                                 | 685 |
| F. MARAGH – H. BOUNIT – A. FADILI – H. HAMMOURI. On the Admissible Control operators for Linear and Bilinear Systems and the Favard Spaces.          | 711 |
| R. ABREU BLAYA – J. BORY REYES. On boundary value problems for perturbed Hermitean matrix Dirac equations in a fractal domain.                       | 733 |
| R. A. BAILEY – M. BURATTI – G. RINALDI – T. TRAETTA. On 2-pyramidal Hamiltonian cycle systems.                                                       | 747 |
| S. OHNO. Composition operators related to the Dirichlet space.                                                                                       | 759 |
