

CONTENTS

Toshihiro NAKANISHI , A theorem on the outradii of Teichmüller spaces	1
Mitsuhiro ITOH , Geometry of anti-self-dual connections and Kuranishi map	9
Ikumitsu NAGASAKI , On homotopy representations with the same dimension function	35
Juno MUKAI , A note on the Kahn-Priddy map	53
Osamu SAEKI , Knotted homology 3-spheres in S^5	65
Vikram JHA and Norman L. JOHNSON , The linearity question for Abelian groups on translation planes	77
Kiyokazu SUTO , Groups associated with unitary forms of Kac-Moody algebras	85
Mitsuru SUGIMOTO , L^p -boundedness of Pseudo-differential operators satisfying Besov estimates I	105
Koichi HIRAIDE , Expansive homeomorphisms with the pseudo-orbit tracing property on compact surfaces	123
Masafumi YOSHINO , Divergent formal solutions to Fuchsian partial differential equations	139
Masako KOBAYASHI , A construction of certain 3-manifolds with orientation reversing involution	151
