BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Volume XXXI, Parts III and IV

CONTENTS

I. On generalized analysis of variance. By P. L. HSU. II. The derivation of the fifth and sixth moments of the distribution of b_2 in samples from a normal population. By C. T. HSU AND D. N. LAWLEY. III. Testing the homogeneity of a set of variances. By H. O. HARTLEY. IV. The simultaneous distribution in samples of mean and standard deviation, and of mean and variance. By L. TRUKSA. V. Certain projective depth and breadth measurements of the facial skeleton in man. By ALETTE SCHREINER. VI. Transposition of the viscera and other reversals of symmetry in monozygotic twins. By E. A. COCKAYNE. VII. The human remains of the iron age and other periods from Maiden Castle, Dorset. By C. N. GOODMAN AND G. M. MORANT. VIII. Homogeneity of results in testing samples from Poisson series. With an application to testing clover seed for dodder. By J. PRZYBOROWSKI AND H. WILENSKI. IX. On the method of paired comparisons. By M. G. KENDALL AND B. BABINGTON SMITH. X. The mean and variance of χ^2 , when used as a test of homogeneity, when expectations are small. By J. B. S. HALDANE. XI. A note on the statistical analysis of sentence-length as a criterion of literary style. By C. B. WILLIAMS. XII. Applications of the non-central t -distribution. By N. L. JOHNSON AND B. L. WELCH. *Miscellanea:* (i) Note on Stirling's Approximation. By E. V. HUNTINGTON. (ii) A note on the interpretation of quasi-sufficiency. By M. S. BARTLETT. (iii) The cumulants and moments of the binomial distribution, and the cumulants of χ^2 for a $(n \times 2)$ -fold table. By J. B. S. HALDANE.

The subscription price, payable in advance, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and on a bank having a London agency.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1940

President:

S. S. WILKS, Princeton University, Princeton, N. J.

Vice-Presidents:

C. C. CRAIG, University of Michigan, Ann Arbor, Michigan.

A. T. CRAIG, University of Iowa, Iowa City, Iowa.

Secretary-Treasurer:

P. R. RIDER, Washington University, St. Louis, Mo.

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$5.00 per year. The dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

ANNUAL MEETING OF THE INSTITUTE

The sixth annual meeting of the Institute will be held in Chicago, Ill., December 26-28, 1940. The program will include joint sessions with the American Statistical Association and the Econometric Society. Sessions will also be held for research and expository papers in mathematical statistics. Abstracts of research papers to be presented should be sent to the Secretary-Treasurer of the Institute not later than November 15, 1940. Each contributed paper will be limited to ten minutes.
