# BAYESIAN ANALYSIS

|  |  |     |
|--|--|-----|
| EM versus Markov chain Monte Carlo for Estimation of Hidden Markov Models:<br>A Computational Perspective..... | T. Rydén   | 659 |
| Comment on article by Rydén .....  | S. Frühwirth-Schnatter                               | 689 |
| Comment on article by Rydén .....  | P. Smyth and S. Kirshner                             | 699 |
| Rejoinder .....  | T. Rydén   | 707 |
| Model-Based Inferences from Adaptive Cluster Sampling .....  | V. E. Rapley, A. H. Welsh                            | 717 |
| Bayesian estimation of the basic reproduction number in stochastic epidemic mod-<br>els .....                  | D. Clancy and P. D. O'Neill                          | 737 |
| Spatial Dynamic Factor Analysis .....  | H. F. Lopes, E. Salazar, D. Gamerman                 | 759 |
| Compressing Parameters in Bayesian High-order Models with Application to Lo-<br>gistic Sequence Models.....    | L. Li and R. M. Neal                                 | 793 |
| Computational Methods for Parameter Estimation in Climate Models .....   | A. Villagran, G. Huerta, C. S. Jackson and M. K. Sen | 823 |
| Bayesian inference for the MAPK/ERK pathway by considering the dependency<br>of the kinetic parameters .....   | V. Purutçuoğlu and E. Wit                            | 851 |
