Preface

<i>Jaromír Antoch, Marie Hušková and Pranab K. Sen</i>	v
--	---

Contributors of this volume

.....	vii
-------	-----

Life and Work of Jana Jurečková: An Appreciation

<i>Jaromír Antoch, Marie Hušková and Pranab K. Sen</i>	1
--	---

Nonparametric comparison of ROC curves: Testing equivalence

<i>Jaromír Antoch, Luboš Prchal and Pascal Sarda</i>	12
--	----

The unbearable transparency of Stein estimation

<i>Rudolf Beran</i>	25
---------------------------	----

On the estimation of cross-information quantities in rank-based inference

<i>Delphine Cassart, Marc Hallin and Davy Paindaveine</i>	35
---	----

Estimation of irregular probability densities

<i>Lieven Desmet, Irène Gijbels and Alexandre Lambert</i>	46
---	----

Measuring directional dependency

<i>Yadolah Dodge and Iraj Yadegari</i>	62
--	----

On a paradoxical property of the Kolmogorov-Smirnov two-sample test

<i>Alexander Y. Gordon and Lev B. Klebanov</i>	70
--	----

MCD-RoSIS – A robust procedure for variable selection

<i>Charlotte Guddat, Ursula Gather and Sonja Kuhnt</i>	75
--	----

A note on reference limits

<i>Jing-Ye Huang, Lin-An Chen and Alan H. Welsh</i>	84
---	----

Simple sequential procedures for change in distribution

<i>Marie Hušková and Ondřej Chochola</i>	95
--	----

A class of multivariate distributions related to distributions with a Gaussian component

<i>Abram M. Kagan and Lev B. Klebanov</i>	105
---	-----
