List of publications .....	viii
<b>Some reminiscences of my friendship with Herman Rubin</b>	
<i>Herman Chernoff</i> .....	1
<b>Evaluating improper priors and the recurrence of symmetric Markov chains: An overview</b>	
<i>Morris L. Eaton</i> .....	5
<b>Estimation in restricted parameter spaces: A review</b>	
<i>Eric Marchand and William E. Strawderman</i> .....	21
<b>A Rubinesque theory of decision</b>	
<i>J. B. Kadane, Mark J. Schervish and Teddy Seidenfeld</i> .....	45
<b>On the distribution of the greatest common divisor</b>	
<i>Persi Diaconis and Paul Erdős</i> .....	56
<b>Versions of de Finetti's Theorem with applications to damage models</b>	
<i>C. R. Rao and D. N. Shanbhag</i> .....	62
<b>A short history of stochastic integration and mathematical finance: The early years, 1880–1970</b>	
<i>Robert Jarrow and Philip Protter</i> .....	75
<b>Non-linear filtering with Gaussian martingale noise: Kalman filter with fBm noise</b>	
<i>L. Gawarecki and V. Mandrekar</i> .....	92
<b>Self-similar processes, fractional Brownian motion and statistical inference</b>	
<i>B.L.S. Prakasa Rao</i> .....	98
<b>Some properties of the arc-sine law related to its invariance under a family of rational maps</b>	
<i>Jim Pitman and Marc Yor</i> .....	126
<b>On time changing continuous martingales to Brownian motion</b>	
<i>Burgess Davis</i> .....	138
<b>On counts of Bernoulli strings and connections to rank orders and random permutations</b>	
<i>Jayaram Sethuraman and Sunder Sethuraman</i> .....	140
<b>Chebyshev polynomials and <math>G</math>-distributed functions of <math>F</math>-distributed variables</b>	
<i>Anirban DasGupta and L. Shepp</i> .....	153
<b>Zeroes of infinitely differentiable characteristic functions</b>	
<i>Herman Rubin and Thomas M. Sellke</i> .....	164
<b>On the characteristic function of Pearson type IV distributions</b>	
<i>Wei-Liem Loh</i> .....	171
<b>Characterizations, Sub and resampling, and goodness of fit</b>	
<i>L. Brown, Anirban DasGupta, John Marden and Dimitris Politis</i> .....	180
