

## OFFICIAL COMMUNICATIONS

### MEETINGS OF THE SOCIETY

NEW YORK CITY, April 25–26, 1947.

Abstracts must have been in the hands of Associate Secretary T. R. Hollcroft, American Mathematical Society, 531 West 116th St., New York 27, N. Y., not later than March 21. By invitation of the Committee to Select Hour Speakers for Eastern Sectional Meetings there will be an address by Professor Claude Chevalley entitled *Theory of algebraic Lie groups* and an address by Professor Max Shiffman entitled *The small and the large in variational analysis*.

CHICAGO, ILLINOIS, April 25–26, 1947.

Abstracts must have been in the hands of Associate Secretary R. H. Bruck, North Hall, University of Wisconsin, Madison 6, Wis., not later than March 21. By invitation of the Committee to Select Hour Speakers for Western Sectional Meetings, there will be a symposium by Professor N. E. Steenrod entitled *Foundations of algebraic topology*, and an address by Professor Marcel Riesz entitled *Lorentz transformations and Clifford numbers*.

STANFORD UNIVERSITY, CALIFORNIA, April 26, 1947.

Abstracts must have been in the hands of Associate Secretary A. C. Schaeffer, Department of Mathematics, Stanford University, Stanford University, Calif., not later than March 22. By invitation of the Committee to Select Hour Speakers for Far Western Sectional Meetings there will be an address by Dr. Abraham Seidenberg entitled *The local uniformization theorem*.

PROVIDENCE, RHODE ISLAND, August 2–4, 1947.

A symposium on *Non-linear problems in mechanics of continua* will be held under the sponsorship of the American Mathematical Society. The program is being arranged by the Society's Committee on Applied Mathematics, the Secretary for the Symposium being Professor William Prager, Brown University, Providence 12, R.I. Sufficient contributions have now been received to complete the program. Authors with papers on applied mathematics which cannot be included in the program of the Symposium should offer them for communication at the meetings of the Society in the usual way.

SUMMER MEETING: NEW HAVEN, CONNECTICUT, September 2–5, 1947.

Abstracts must be in the hands of Associate Secretary T. R. Hollcroft, American Mathematical Society, 531 West 116th Street, New York 27, N. Y., not later than July 29. The Colloquium Lectures on *Abstract algebraic geometry* will be given by Professor Oscar Zariski. By invitation of the Committee to Select Hour Speakers for Annual and Summer Meetings, there will be an address by Professor S. S. Wilks entitled *Sampling theory of order statistics*.

NEW YORK CITY, October 25, 1947.

PASADENA, CALIFORNIA, November 29, 1947.

ANNUAL MEETING: ATHENS, GEORGIA, December 29–31, 1947.

J. R. KLINE, *Secretary of the Society*

---

Articles for insertion in the BULLETIN should be typewritten, double spaced, and the author should keep a complete copy. Papers in algebra and theory of numbers should be sent to SAUNDERS MACLANE, 246 Widener, Harvard University, Cambridge 38, Mass.; in analysis to R. E. LANGER, North Hall, University of Wisconsin, Madison 6, Wis.; in other fields to DEANE MONTGOMERY, Department of Mathematics, Yale University, New Haven, Conn. Reviews should be sent to E. R. LORCH, Milbank Hall, Columbia University, New York 27, N. Y., and items for Notes to BULLETIN OF THE AMERICAN MATHEMATICAL SOCIETY, 531 West 116th St., New York 27, N. Y. All communications relating to the odd-numbered issues of the BULLETIN should be sent to E. B. STOFFER, University of Kansas, Lawrence, Kan., and all other communications to the editors should be addressed to the Managing Editor, SAUNDERS MACLANE, 246 Widener, Harvard University, Cambridge 38, Mass.

The initial fees and annual dues of members of the Society (see this BULLETIN, May, 1930, p. 322; and November, 1946, Part 2, p. 105) are payable to the Treasurer of the Society, B. P. GILL, 531 West 116th St., New York 27, N. Y.

## CONTENTS

Vol. 53, No. 4

APRIL, 1947

Whole No. 571

	Page
Remarks on metrizable. By M. H. STONE . . . . .	289
Some remarks on the theory of graphs. By P. ERDÖS . . . . .	292
On compact fiberings of the plane. By G. S. YOUNG . . . . .	295
On the interior of the convex hull of a euclidean set. By WIL- LIAM GUSTIN . . . . .	299
On Nörlund summability of random variables to zero. By G. E. FORSYTHE . . . . .	302
A note on the mean value of the Poisson kernel. By A. S. GAL- BRAITH and J. W. GREEN . . . . .	314
On averages of Newtonian potentials. By M. O. READE . . . . .	321
On the structure of intrinsic derivatives. By H. V. CRAIG . . . . .	332
A note on the interrelation of subsets of independent variables of a continuous function with continuous first derivatives. By WASSILY LEONTIEF . . . . .	343
Unsymmetrical approximation of irrational numbers. By R. M. ROBINSON . . . . .	351
A new proof of Hilbert's Nullstellensatz. By OSCAR ZARISKI . . . . .	362
On the structure of algebras with nonzero radical. By G. HOCHS- CHILD . . . . .	369
On a conjecture about infinite class fields. By GEORGE WHAPLES . . . . .	377
Sequences of ideal solutions in the Tarry-Escott problem. By H. L. DORWART . . . . .	381
The non-existence of a certain type of odd perfect number. By R. J. LEVIT . . . . .	392
Extensions of differential fields. III. By E. R. KOLCHIN . . . . .	397
Two-dimensional geometries with elementary areas. By HER- BERT BUSEMANN . . . . .	402
On principal lines and principal points. By SHU-CHU FONG . . . . .	408
