

**VOL. 45 NO. 3**

**JULY, 1993**

**CONTENTS**

|                                                                                                                   |     |
|-------------------------------------------------------------------------------------------------------------------|-----|
| <b>Kazuhiko KURANO</b> , An approach to the characteristic free Dutta multiplicity .....                          | 369 |
| <b>Kazuaki TAIRA</b> , On a class of hypoelliptic differential operators with double characteristics .....        | 391 |
| <b>Nobuaki OBATA</b> , An analytic characterization of symbols of operators on white noise functionals .....      | 421 |
| <b>Jerzy KACZOROWSKI and Alberto PERELLI</b> , On the distribution of primes in short intervals .....             | 447 |
| <b>Masayuki IGARASHI, Kazuyoshi KIYOHARA and Kunio SUGAHARA</b> , Non-compact Liouville surfaces .....            | 459 |
| <b>Hirotaka FUJIMOTO</b> , Unicity theorems for the Gauss maps of complete minimal surfaces .....                 | 481 |
| <b>Tsuneyo YAMANOSHITA</b> , On the space of self homotopy equivalences of the projective plane .....             | 489 |
| <b>Akira KONO and Kazumoto KOZIMA</b> , The adjoint action of a Lie group on the space of loops .....             | 495 |
| <b>Takeshi MANDAI</b> , Characteristic Cauchy problems for some non-Fuchsian partial differential operators ..... | 511 |
| <b>Tomomi GOUMA</b> , Isomorphism of meromorphic function fields on Riemann surfaces ...                          | 547 |
| <b>Mauro C. BELTRAMETTI and Andrew J. SOMMESE</b> , A remark on the Kawamata rationality theorem .....            | 557 |
| <b>Naoyuki ISHIMURA</b> , Limit shape of the cross-section of shrinking doughnuts .....                           | 569 |
