

**VOL. 21 NO. 3**

**JULY, 1969**

**CONTENTS**

<b>Katuzi ONO</b> , On a class of set-theoretical interpretations of the primitive logic .....	313
<b>Kensuke TAKEUCHI</b> , The word problem for free distributive lattices .....	330
<b>Hiroyoshi YAMAKI</b> , A characterization of the simple group $S_p(6, 2)$ .....	334
<b>Armand BRUMER</b> , On the group of units of an absolutely cyclic number field of prime degree .....	357
<b>Kenichi IYANAGA</b> , Class numbers of definite Hermitian forms .....	359
<b>Yukio KOMURA</b> , Differentiability of nonlinear semigroups .....	375
<b>Isao MIYADERA</b> , On the convergence of nonlinear semi-groups II .....	403
<b>Hitoshi KUMANO-GO</b> , Remarks on pseudo-differential operators* .....	413
<b>Tsuan Wu TING</b> , Parabolic and pseudo-parabolic partial differential equations* .....	440
<b>Alfred GRAY</b> , A generalization of F. Schur's theorem .....	454
<b>Mitsuyoshi KATO</b> , Higher dimensional <i>PL</i> knots and knot manifolds .....	458
