

CONTENTS

T. HATTORI , Singular matrices and geometry at infinity of products of symmetric spaces	367
M. ENOKIZONO , Upper bounds on the slope of certain fibered surfaces	417
L. D. ABREU, P. BALAZS and S. JAKŠIĆ , The affine ensemble: determinantal point processes associated with the $ax + b$ group	469
Y. BRUNED and D. MANCHON , Algebraic deformation for (S)PDEs	485
D. KIM, P. KIM and K. KUWAE , Stability of estimates for fundamental solutions under Feynman–Kac perturbations for symmetric Markov processes	527
J. CUNANAN and S. SHIRAKI , Some sharp null-form type estimates for the Klein–Gordon equation	573
M. SOBAJIMA , On global existence for semilinear wave equations with space-dependent critical damping	603
M. CRAIZER and R. A. GARCIA , Singularities of generic line congruences	629
L. YANG, Y. WANG and P. E. KLOEDEN , Robustness of exponential attractors for infinite dimensional dynamical systems with small delay and application to 2D nonlocal diffusion delay lattice systems	655
J. F. FERNANDO and C. UENO , On polynomial images of a closed ball	679
Y. OZEKI , Torsion of algebraic groups and iterate extensions associated with Lubin–Tate formal groups	735
