CORRECTION

A CORRELATED TOPIC MODEL OF *SCIENCE*

Ann. Appl. Statist. **1** (2007) 17–35

BY DAVID M. BLEI AND JOHN D. LAFFERTY

Princeton University and Carnegie Mellon University

In our paper that appeared in Vol. 1, No. 1 of *The Annals of Applied Statistics*, the second equation on page 24 should have an additional term $+ \mathrm{H}(q_d)$. The correct version of the equation is as follows:

$$\mathcal{L}(\boldsymbol{\mu}, \boldsymbol{\Sigma}, \boldsymbol{\beta}_{1:K}; \boldsymbol{w}_{1:D}) \geq \sum_{d=1}^{D} \mathrm{E}_{q_d}[\log p(\boldsymbol{\eta}_d, \boldsymbol{z}_d, \boldsymbol{w}_d | \boldsymbol{\mu}, \boldsymbol{\Sigma}, \boldsymbol{\beta}_{1:K})] + \mathrm{H}(q_d).$$
