

## Note of correction: “Conjugate Analysis of the Conway-Maxwell-Poisson Distribution”\*

Joseph B. Kadane<sup>†</sup>, Galit Shmueli, Thomas P. Minka,  
Sharad Borle, and Peter Boatwright

We are grateful to Kimberly Sellers and Darcy Morris for raising a question about our equations (23) and (24) (Kadane et al., 2006), which led to the discovery of the following error: equation (23) should read:

$$“\lambda |_{\nu=\infty} \sim (a/(c-a))F(2a, 2(c-a)), \text{ provided } c > a.”$$

The factor  $a/(c-a)$  was omitted.
