

ACKNOWLEDGMENT OF PRIORITY

BY LEONARD E. BAUM

Institute for Defense Analyses

In connection with my article "On convergence to $+\infty$ in the law of large numbers", *Ann. Math. Statist.* **34** (1963) 219–222, I wish to acknowledge that Professor K. L. Chung had previously obtained essentially the same construction. See *Math. Reviews* **17** 48, review by K. L. Chung of C. Derman and H. Robbins, "The strong law of large numbers when the first moment does not exist".
