

## CONTENTS.

Numbers of Formulæ	I. The Law of Causality.	Page
§ 1.	Belief in Causality .....	165
§ 2.	The Observations and their Circumstances .....	166
§ 3.	Errors of Observations .....	167
§ 4.	Theoretical and Empirical Science .....	168
<b>II. Laws of Errors.</b>		
§ 5.	On Repetitions .....	169
§ 6.	Laws of Actual Errors and Laws of Presumptive Errors .....	169
§ 7.	The Law of Large Numbers of Repetitions .....	170
§ 8.	Four Different Forms of Laws of Errors .....	171
<b>III. Tabular Arrangements.</b>		
§ 9.	Frequency and Probability .....	172
§ 10.	Repetitions with Qualitative Differences between the Results .....	172
§ 11.	Repetitions with Quantitative Differences between the Results .....	173
<b>IV. Curves of Errors.</b>		
§ 12.	Curves of Actual Errors of Observations in Discontinued Values .....	174
§ 13.	Curves of Actual Errors for Rounded Observations .....	174
§ 14.	Curves of Presumptive Errors .....	175
§ 15.	Typical Curves of Errors .....	178
§ 16.	Particular Measures of Curves of Errors .....	178
<b>V. Functional Laws of Errors.</b>		
§ 17.	1. Their Determination by Interpolation .....	179
§ 18.	2-8. The Typical or Exponential Law of Errors .....	180
	Problems .....	183
§ 19.	9-13. The Binomial Functions .....	184
§ 20.	14. Some of the more general Functional Laws of Errors. Series .....	185
