

NOTE

ACKNOWLEDGMENT OF PRIORITY TO

“A NEW FORMULA FOR $P(R_i \leq b_i, 1 \leq i \leq m \mid m, n, F = G^k)$ ”

BY G. P. STECK

Sandia Laboratories

Professor T. V. Narayana points out that the relationship I derive [*Ann. Probability* 2 (1974) 155–160], between the events $[a_i \leq R_i \leq b_i, \text{ all } i]$ and $[\alpha_j \leq S_j \leq \beta_j, \text{ all } j]$ has been known for some time. A proof is given on page 172 of the following reference:

- [1] Fulton, G. E. and Narayana, T. V. (1958). A note on the compositions of an integer. *Canad. Math. Bull.* 1 169–173.
