

NOTE

ACKNOWLEDGMENT OF PRIORITY TO "A SHORT PROOF OF STECK'S RESULT ON TWO-SAMPLE SMIRNOV STATISTICS"

BY S. G. MOHANTY
McMaster University

Professor T. V. Narayana has pointed out to me that in my paper [*Ann. Math. Statist.* (1971) **42** 413–414]. I have actually proved the special case $r = 1$ of G. Krewaras' (two-sided) result [1]. It is also acknowledged that the one-sided result was given by Professor Narayana in [2].

- [1] KREWARAS, G. (1965). Sur une classe de problèmes de dénombrement liés au treillis des partitions des entiers. *Cahiers du Bur. Univ. de Recherche Opér. (ISUP)* No. 6 1–103.
- [2] NARAYANA, T. V. (1955). A combinatorial problem and its application to probability theory-1. *J. Indian Soc. of Agricult. Statist.* **7** 169–178.
