ACKNOWLEDGEMENT OF PRIORITY

BY H. E. ROBBINS

University of North Carolina

At the time of publication of my papers on the measure of a random set (*Annals of Math. Stat.*, Vol. 15 (1944), pp. 70-74; Vol. 16 (1945), pp. 342-347), I was unaware that the theorem on page 72 of the first paper, which affords a means of computing the expected value of the measure, had already been found by A. Kolmogoroff. (*Grundbegriffe der Wahrscheinlichkeitsrechnung*, Ergebnisse der Mathematik, Berlin, 1933, p. 41). I wish to take this opportunity of acknowledging Kolmogoroff's priority, which was pointed out by Prof. Henry Scheffé.
