

Correction

There is an error on page 99 of “A Conversation with Ralph A. Bradley” by Myles Hollander, *Statistical Science*, **16** 75–100. Dr. Dennis Wackerly’s Ph.D. advisor was Dr. Robert J. Serfling, not Dr. Ralph A. Bradley as recollected. Dr. Wackerly’s middle initial is “D,” not “A.” Ralph Bradley and Myles Hollander are grateful to Dr. Georgia L. Thompson for bringing this to their attention.

Myles Hollander is Robert O. Lawton Distinguished Professor and Chairman, Department of Statistics and Statistical Consulting Center, Florida State University, Tallahassee, Florida 32306 (e-mail: holland@stat.fsu.edu).
