

Editorial Notice

In volume 28, number 3, 1987, we published “More on Trees and Finite Satisfiability: The Taming of Terms” by Miodrag Kapetanović and Aleksandar Krapež.

In volume 46, number 2, 2005, we published “Finite Tree Property for First-Order Logic with Identity and Functions” by Merrie Bergmann.

As Drs. Kapetanović and Krapež have pointed out, there is significant overlap in the contents of these papers. The editors apologize for this oversight.
