

# TAME ACTIONS OF GROUP SCHEMES: INTEGRALS AND SLICES

T. CHINBURG, B. EREZ, G. PAPPAS, AND M. J. TAYLOR

## CONTENTS

|   |     |
|---|-----|
| Introduction .....                          | 270 |
| 1. Generalities .....                       | 272 |
| 1.a. Standing hypotheses and notation ..... | 272 |
| 1.b. Actions .....                          | 272 |
| 1.c. Quotients .....                        | 273 |
| 1.d. Finite constant groups .....           | 274 |
| 1.e. <i>fppf</i> -sheaves .....             | 274 |
| 1.f. Torsors .....                          | 274 |
| 1.g. Induced actions .....                  | 275 |
| 1.h. Duality .....                          | 275 |
| 2. Tame actions .....                       | 276 |
| 2.a. Haar measures .....                    | 277 |
| 2.b. Trace-surjectivity .....               | 277 |
| 2.c. The projector .....                    | 277 |
| 2.d. Linearly reductive groups .....        | 278 |
| 2.e. Diagonalizable groups .....            | 278 |
| 2.f. <i>CH</i> -tameness .....              | 279 |
| 2.g. Homological properties .....           | 280 |
| 2.h. Functoriality .....                    | 282 |
| 2.i. Proof of Theorem 2.6 .....             | 284 |
| 2.j. Ramification .....                     | 285 |
| 2.k. Topological properties .....           | 286 |
| 3. Flat slices .....                        | 287 |
| 3.a. Tubular neighbourhoods .....           | 287 |
| 3.b. Morita equivalence .....               | 288 |
| 3.c. Slice groups as inertia .....          | 288 |
| 4. Some questions .....                     | 288 |
| 5. Affine quotients .....                   | 289 |
| 6. Slices .....                             | 290 |
| 6.a. Free actions .....                     | 290 |
| 6.b. Etale slices .....                     | 291 |
| 6.c. Unipotent groups .....                 | 292 |

Received 15 August 1994. Revision received 13 June 1995.
