

## VOLUME INDEX

- Agarwal, Ravi P., *Solvability of a quadratic Hammerstein integral equation in the class of functions having limits at infinity*, 157.
- Athanasiadis, C.E., *A boundary integral equations approach for mixed impedance problems in elasticity*, 183.
- Banaś, Józef, see Agarwal, Ravi P.
- Banaś, Kamil, see Agarwal, Ravi P.
- Böttcher, Albrecht, *Inequalities of the Markov type for partial derivatives of polynomials in several variables*, 1.
- Brunner, Hermann, *The computation of the spectra of highly oscillatory Fredholm integral operators*, 467.
- Chen, Huajie, *Two-scale finite element discretizations for integrodifferential equations*, 351.
- Chen, Zhongying, *Fast multilevel augmentation methods with compression technique for solving ill-posed integral equations*, 39.
- Cheng, Sirui, see Chen, Zhongying.
- Desch, W., *Spectrum of a viscoelastic boundary damping model*, 521.
- Dörfler, Peter, see Böttcher, Albrecht.
- Fašangová, E., see Desch, W.
- Grigorieff, R.D., *Additional order convergence in quolocation for elliptic boundary integral equations*, 383.
- Haak, Bernhard H., *Observation of Volterra systems with scalar kernels*, 421.
- Henríquez, Hernán, see Paulo C. Dos Santos, José.
- Hernández, Eduardo, see Paulo C. Dos Santos, José.
- Hu, Yangzi, *A class of stochastic functional differential equations with Markovian switching*, 223.
- Iserles, Arieh, see Brunner, Hermann.
- Jacob, Birgit, see Haak, Bernhard H.
- Janno, Jaan, see Von Wolfersdorf, Lothar.
- Kaneko, Hideaki, see Neamprem, Khomsan.
- Kemppainen, Jukka, *Properties of the single layer potential for the time fractional diffusion equation*, 437.
- Kemppainen, Jukka, *Boundary behavior of the layer potentials for the time fractional diffusion equation in Lipschitz domains*, 541.
- Liu, Fang, see Chen, Huajie.
- Martin, P.A., *Book Review: "Applied singular integral equations,"* B.N. Mandal and A. Chakrabarti, 597.
- Mastroianni, G., *A Nyström method for Fredholm integral equations on the real line*, 253.
- Matar, Mohammed, *On existence and uniqueness of the mild solution for fractional semilinear integro-differential equations*, 457.
- Milota, J., see Desch, W.
- Natroshvili, D., see Athanasiadis, C.E.
- Neamprem, Khomsan, *Acceleration techniques by post-processing of numerical solutions of the Hammerstein equation*, 565.
- Nørsett, Syvert P., see Brunner, Hermann.
- Notarangelo, I., see Mastroianni, G.
- O'Regan, Donal, see Agarwal, Ravi P.
