PRELIMINARY CONFERENCE ANNOUNCEMENT

Summer Symposium in Real Analysis:

Recent Trends in the Differentiation of Real Functions

Subject to funding at either the local or national level, the University of Wisconsin - Milwaukee will host a conference in real analysis during the summer of 1979. Professor A. M. Bruckner of the University of California at Santa Barbara has agreed to serve as principal lecturer for the symposium and will give a series of lectures on the theory of differentiation.

The exact dates of the conference, local accomodations and possible support for participants will be established later. Those interested in receiving additional information should write to
