

CONFERENCE ANNOUNCEMENTS

There are three conferences announced below which might be of interest to our readers.

1. As part of the annual meetings of the American Mathematical Society to be held in Atlanta GA, January 6 - 9, 1988, Professor Jack B. Brown and Professor R. Daniel Mauldin will chair a special session on, "Measure Theory and Descriptive Set Theory". The talks will take place Wednesday afternoon, January 6 and Thursday morning, January 7. Speakers include Jack Brown, Douglas Cenzer, Siegfried Graf, Alexander Kechris, Alain Louveau, Ashok Maitra, Arnold Miller, Jan Mycielski, Isacc Namioka, Karel Prikry, R. M. Shortt, S. J. Taylor, Robert Vaught, and Stan Williams. For further information contact Professor Jack B. Brown, Mathematics Department, Auburn University, Auburn AL 36849 or Professor R. Daniel Mauldin, Mathematics Department, North Texas State University, Denton TX 76203.

2. The Fifth Annual Auburn Miniconference on Real Analysis will take place April 15 and 16, 1988 at Auburn University. The principal speakers will be Professor Jerry Uhl of the University of Illinois and Professor Michael Evans of North Carolina State University. For further information write to Professor Jack B. Brown, Mathematics Department, Auburn University, Auburn AL 36849.

3. The Twelfth Summer Symposium in Real Analysis will be held at the University of Ulster, Coleraine, Northern Ireland August 9 - 12, 1988 as a tribute to Professor Ralph Henstock and his many significant contributions to the theory of nonabsolutely continuous integrals. Among the principal speakers are Peter Bullen, George Cross, Ralph Henstock, J. Kurzweil, Lee PengYee, Jean Mawhin, Patrick Muldowney, and Washek Pfeffer. For additional information contact Professor Partick Muldowney, University of Ulster, Magee College, Northland Road, Londonderry BT48 7JL, Northern Ireland.
