Articles

J. Cano Torres, P. Fortuny Ayuso, J. Ribón , Complexity of Puiseux solutions of differential and q -difference equations of order and degree one	331–358
E. Artal Bartolo, J. I. Cogolludo-Agustín, J. Martín-Morales , Cyclic coverings of rational normal surfaces which are quotients of a product of curves	359–406
S. Ghara, J. Mashreghi, T. Ransford , Summability and duality	407–429
A. Dimca, G. Ilardi , On the duals of smooth projective complex hypersurfaces	431–438
B. A. F. Wehrfritz , On groups of finite Prüfer rank	439–443
P. Villarroya , New local $T1$ theorems on non-homogeneous spaces	445–506
S.-S. Byun, K. Kim, D. Kumar , Regularity results for a class of non-local double phase equations with VMO coefficients	507–544
I. Mundet i Riera , Jordan property for homeomorphism groups and almost fixed point property	545–557
R. Jawad, N. Snashall, R. Taillefer , A combinatorial characterisation of d -Koszul and (D, A) -stacked monomial algebras that satisfy (Fg)	559–591
J. Galindo, E. Jordá, A. Rodríguez-Arenas , Uniformly ergodic probability measures	593–613
