

# ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 14, Numbers 1-2

January/February 2009

---

## CONTENTS

<b>Saïd Benachour, Matania Ben-Artzi, and Philippe Laurençot,</b> Sharp decay estimates and vanishing viscosity for diffusive Hamilton-Jacobi equations .....	1
<b>D.C. Antonopoulos, V.A. Dougalis, and D.E. Mitsotakis,</b> Initial-boundary-value problems for the Bona-Smith family of Boussinesq systems .....	27
<b>Anne Langlois and Martine Marion,</b> Asymptotic analysis of a parabolic system arising in combustion theory .....	55
<b>Peter Howard,</b> Spectral analysis of stationary solutions of the Cahn-Hilliard equation .....	87
<b>Verena Bögelein,</b> Very weak solutions of higher-order degenerate parabolic systems .....	121
