

ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 23, Numbers 3-4

March/April 2018

Yonggeun Cho, Gyeongha Hwang, and Tohru Ozawa, On the focusing energy-critical fractional nonlinear Schrödinger equations	161
Zhuan Ye, Global regularity of the 2D magnetic Bénard system with partial dissipation	193
Nakao Hayashi and Pavel I. Naumkin, Asymptotics for the modified Boussinesq equation in one space dimension	239
Thomas Krainer and Gerardo A. Mendoza, The Friedrichs extension for elliptic wedge operators of second order	295
