

ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 24, Numbers 5-6

May/June 2019

| | |
|--|-----|
| Mathias Nikolai Arnesen , Non-uniform dependence on initial data for equations of Whitham type | 257 |
| Hartmut Pecher , Low regularity local well-posedness for the higher-dimensional Yang-Mills equation in Lorenz gauge | 283 |
| Katsunori Gunji , L^2 representations of the Second Variation and Łojasiewicz- Simon gradient estimates for a decomposition of the Möbius energy | 321 |
