

# ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 27, Numbers 1-2

January/February 2022

---

<b>Bin Ge and Patrizia Pucci</b> , Quasilinear double phase problems in the whole space via perturbation methods .....	1
<b>Marta Lewicka</b> , Non-local tug-of-war with noise for the geometric fractional p-Laplacian .....	31
<b>Vladimir Maz'ya and Robert McOwen</b> , Gradient estimate for solutions of second-order elliptic equations .....	77
