

# ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 29, Numbers 5-6

May/June 2024 2024

---

|  |     |
|--|-----|
| <b>Karol Szczypkowski</b> , Fundamental solution for super-critical non-symmetric Lévy-type operators .....  | 291 |
| <b>Riccardo Durastanti and Francescantonio Oliva</b> , The Dirichlet problem for possibly singular elliptic equations with degenerate coercivity ..... | 339 |
| <b>Yoshikazu Giga and Zhongyang Gu</b> , The Helmholtz decomposition of a <i>BMO</i> type vector field in general unbounded domains .....              | 389 |
| <b>Julián López-Gómez and Eduardo Muñoz-Hernández</b> , A robust multiplicity result in a generalized diffusive predator-prey model .....              | 437 |
