

ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 29, Numbers 9-10

September/October 2024 2024

José Manuel Palacios, Local well-posedness for the Zakharov-Kuznetsov equation on the background of a bounded function	655
Simone Creo and Maria Rosaria Lancia, Dynamic boundary conditions for time dependent fractional operators on extension domains	727
Claudia Capone and Antonia Passarelli di Napoli, Regularity results to a class of elliptic equations with explicit u -dependence and Orlicz growth	757
Tomoyuki Nakatsuka, On unique solvability of the time-periodic problem for the Navier-Stokes equation	783
