

ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 30, Numbers 3-4

March/April 2025

Christopher S. Goodrich , $p(x)$ -growth in nonlocal differential equations with convolution coefficients	115
Michinori Ishiwata, Bernhard Ruf, Federica Sani, and Elide Terraneo , Blow-up and global solutions for subcritical and critical parabolic equations in \mathbb{R}^N	141
Yanbo Hu and Yuusuke Sugiyama , Well-posedness of the initial-boundary value problem for 1D degenerate quasilinear wave equations	177
Niklas L.P. Lundström and Gunnar J. Söderbacka , Estimates of size of cycle in a predator-prey system II	207
