Perfect simulation for a class of positive recurrent Markov chains	
STEPHEN B. CONNOR AND WILFRID S. KENDALL	781
Structural properties of proportional fairness:	
Stability and insensitivity . . . . .	LAURENT MASSOULIÉ 809
Stationary distributions of a model of sympatric speciation . . . . .	FENG YU 840
Deterministic equivalents for certain functionals of large random matrices	
WALID HACHEM, PHILIPPE LOUBATON AND JAMAL NAJIM	875
A general lower bound for mixing of single-site dynamics on graphs	
THOMAS P. HAYES AND ALISTAIR SINCLAIR	931
Nonintersecting Brownian excursions . . . . .	CRAIG A. TRACY AND HAROLD WIDOM 953
Probabilistic validation of homology computations for nodal domains	
KONSTANTIN MISCHAIKOW AND THOMAS WANNER	980
Uniform convergence of exact large deviations for	
renewal reward processes . . . . .	ZHIYI CHI 1019
Heavy traffic limit for a processor sharing queue with soft deadlines	
H. CHRISTIAN GROMOLL AND ŁUKASZ KRUK	1049
Some relations between mutual information and estimation error in Wiener space	
EDDY MAYER-WOLF AND MOSHE ZAKAI	1102
