

# THE ANNALS *of* APPLIED STATISTICS

*AN OFFICIAL JOURNAL OF THE*  
INSTITUTE OF MATHEMATICAL STATISTICS

## Articles

Editorial . . . . .	MICHAEL L. STEIN	1
A statistical analysis of multiple temperature proxies: Are reconstructions of surface temperatures over the last 1000 years reliable? BLAKELEY B. MCSHANE AND ABRAHAM J. WYNER		5
Discussion . . . . .	L. MARK BERLINER	45
Discussion . . . . .	ALEXEY KAPLAN	47
Discussion . . . . .	RICHARD A. DAVIS AND JINGCHEN LIU	52
Discussion . . . . .	STEPHEN MCINTYRE AND ROSS MCKITRICK	56
Discussion . . . . .	MURALI HARAN AND NATHAN M. URBAN	61
Discussion . . . . .	GAVIN A. SCHMIDT, MICHAEL E. MANN AND SCOTT D. RUTHERFORD	65
Discussion . . . . .	LASSE HOLMSTRÖM	71
Discussion . . . . .	JASON E. SMERDON	76
Discussion . . . . .	DOUG NYCHKA AND BO LI	80
Discussion: Spurious predictions with random time series: The Lasso in the context of paleoclimatic reconstructions. . . . .	MARTIN P. TINGLEY	83
Discussion . . . . .	PETER CRAIGMILE AND BALA RAJARATNAM	88
Discussion . . . . .	EUGENE R. WAHL AND CASPAR M. AMMANN	91
Discussion . . . . .	JONATHAN ROUGIER	96
Rejoinder . . . . .	BLAKELEY B. MCSHANE AND ABRAHAM J. WYNER	99
An autoregressive approach to house price modeling CHAITRA H. NAGARAJA, LAWRENCE D. BROWN AND LINDA H. ZHAO		124
A spatial analysis of multivariate output from regional climate models STEPHAN R. SAIN, REINHARD FURRER AND NOEL CRESSIE		150
Estimating the number of neurons in multi-neuronal spike trains MENGXIN LI AND WEI-LIEM LOH		176
Bayesian methods to overcome the winner's curse in genetic studies LIZHEN XU, RADU V. CRAIU AND LEI SUN		201
Coordinate descent algorithms for nonconvex penalized regression, with applications to biological feature selection . . . . .	PATRICK BREHENY AND JIAN HUANG	232
Bayesian inference for queueing networks and modeling of internet services CHARLES SUTTON AND MICHAEL I. JORDAN		254
Detecting multiple authorship of United States Supreme Court legal decisions using function words . . . . .	JEFFREY S. ROSENTHAL AND ALBERT H. YOON	283
Overlapping stochastic block models with application to the French political blogosphere. . . . .	PIERRE LATOUCHE, ETIENNE BIRMELE AND CHRISTOPHE AMBROISE	309
Nonlinear tube-fitting for the analysis of anatomical and functional structures JEFF GOLDSMITH, BRIAN CAFFO, CIPRIAN CRAINICEANU, DANIEL REICH, YONG DU AND CRAIG HENDRIX		337
