

THE ANNALS *of* MATHEMATICAL STATISTICS

FOUNDED AND EDITED BY H. C. CARVER, 1930-1938

EDITED BY S. S. WILKS, 1938-1949

THE OFFICIAL JOURNAL OF THE INSTITUTE
OF MATHEMATICAL STATISTICS

Contents

	PAGE
On branching processes with random environments, I: Extinction probabilities KRISHNA B. ATHREYA AND SAMUEL KARLIN	1499
Convergence rates for empirical Bayes two-action problems I. Discrete case M. V. JOHNS, JR. AND J. VAN RYZIN	1521
Some flexible estimates of location..... LOUIS A. JAECKEL	1540
Admissibility of certain location invariant multiple decision procedures. MARTIN FOX	1553
Some results on invariant sets for translation parameter family of probability mea- sures—I..... P. K. PATHAK AND NEIL W. RICKERT	1562
Multivariate procedures invariant under linear transformations..... R. L. OBENCHAIN	1569
On the admissible estimators for certain fixed sample binomial problems BRUCE MCK. JOHNSON	1579
New criteria for estimability for linear models..... GEORGE A. MILLIKEN	1588
Pitman efficiencies of Kolmogorov-Smirnov tests..... C. S. YU	1595
An asymptotic characterization of bias reduction by jackknifing J. E. ADAMS, H. L. GRAY AND T. A. WATKINS	1606
Elfving's theorem and optimal designs for quadratic loss..... W. J. STUDDEN	1613
Distributed lag estimation when the parameter space is explicitly infinite-dimensional CHRISTOPHER A. SIMS	1622
A weak convergence theorem for order statistics from strong-mixing processes ROY E. WELSCH	1637
Some conditions under which two random variables are equal almost surely and a simple proof of a theorem of Chung and Fuchs..... DAVID GILAT	1647
Convergence criteria for multiparameter stochastic processes and some applications P. J. BICKEL AND M. J. WICHURA	1656
Limit theorems for some occupancy and sequential occupancy problems. LARS HOLST	1671
A necessary condition on the infinite divisibility of probability distributions ALAN F. RUEGG	1681
Invariant measures on some Markov processes..... Y. S. YANG	1686
A gambling theorem and optimal stopping theory..... WILLIAM D. SUDDERTH	1697
Hide and seek, data storage, and entropy ROBERT J. McELIECE AND EDWARD C. POSNER	1706
Maximal average-reward policies for semi-Markov decision processes with arbitrary state and action space..... STEVEN A. LIPPMAN	1717
