

# THE ANNALS *of* PROBABILITY

AN OFFICIAL JOURNAL OF THE  
INSTITUTE OF MATHEMATICAL STATISTICS

## Articles

- Zero temperature limit for interacting Brownian particles. I.  
Motion of a single body . . . . . TADAHISA FUNAKI 1201
- Zero temperature limit for interacting Brownian particles. II.  
Coagulation in one dimension . . . . . TADAHISA FUNAKI 1228
- Flows, coalescence and noise . . . . . YVES LE JAN AND OLIVIER RAIMOND 1247
- Moderate deviation probabilities for open convex  
sets: Nonlogarithmic behavior . . . . . UWE EINMAHL AND JAMES KUELBS 1316
- A new factorization property of the selfdecomposable probability measures  
ALEKSANDER M. IKSANOV, ZBIGNIEW J. JUREK AND BERTRAM M. SCHREIBER 1356
- Path decompositions for Markov chains . . . . . GÖTZ KERSTING AND KAYA MEMİŞOĞLU 1370
- A uniform functional law of the logarithm  
for the local empirical process . . . . . DAVID M. MASON 1391
- Exact convergence rate and leading term in central  
limit theorem for Student's  $t$  statistic . . . . . PETER HALL AND QIYING WANG 1419
- Extreme value theory, ergodic theory and the boundary between short memory  
and long memory for stationary stable processes . . . . . GENNADY SAMORODNITSKY 1438
- Means of a Dirichlet process and multiple hypergeometric functions  
ANTONIO LIJOI AND EUGENIO REGAZZINI 1469
- On the concentration of measure phenomenon for stable and  
related random vectors . . . . . CHRISTIAN HOUDRÉ AND PHILIPPE MARCHAL 1496
- Algebraic methods toward higher-order  
probability inequalities, II . . . . . DONALD ST. P. RICHARDS 1509
- Stochastic bounds for Lévy processes . . . . . R. A. DONEY 1545
- Lévy processes and Fourier analysis on compact Lie groups . . . . . MING LIAO 1553
- Sharp asymptotics of the functional quantization  
problem for Gaussian processes . . . . . HARALD LUSCHGY AND GILLES PAGÈS 1574
- On weighted  $U$ -statistics for stationary processes . . . . . TAIEN HSING AND WEI BIAO WU 1600
- Uniqueness of solutions of the stochastic Navier–Stokes equation with invariant  
measure given by the enstrophy . . . . . S. ALBEVERIO AND B. FERRARIO 1632
- On Hoeffding's inequalities . . . . . VIDMANTAS BENTKUS 1650
- Martingale approximations for sums of  
stationary processes . . . . . WEI BIAO WU AND MICHAEL WOODROOFE 1674
- Relative entropy and variational properties of generalized Gibbsian measures  
CHRISTOF KÜLSKE, ARNAUD LE NY AND FRANK REDIG 1691
