No. 2

## The 1985 Wald Memorial Lectures

An ancillarity paradox which appears in multiple linear regression	LAWRENCE D. BROWN
Discussion	JAMES BERGER
Discussion	GEORGE CASELLA
Discussion	J. B. COPAS
Discussion	B. EFRON
Discussion	D. A. S. FRASER AND N. REID
Discussion	LEON JAY GLESER
Discussion	B. M. HILL
Discussion	IAIN M. JOHNSTONE
Discussion	KUN-LIANG LU
Discussion	C. N. MORRIS
Discussion	CHARLES STEIN
Rejoinder	LAWRENCE D. BROWN

## Articles

The Erdős-Rényi law in distribution, for coin tossing and sequence matching	R. ARRATIA, L. GORDON AND M. S. WATERMAN
Statistical composition of high-scoring segments from molecular sequences	SAMUEL KARLIN, AMIR DEMBO AND TSUTOMU KAWABATA
Random truncation models and Markov processes	NIELS KEIDING AND RICHARD D. GILL
Bayes estimation from a Markov renewal process	MICHAEL J. PHELAN
Subjective hierarchical Bayes estimation of a multivariate normal mean: On the frequentist interface	JAMES O. BERGER AND CHRISTIAN ROBERT
Hotelling's theorem on the volume of tubes: Some illustrations in simultaneous inference and data analysis	SØREN JOHANSEN AND IAIN M. JOHNSTONE
Volumes of tubular neighborhoods of spherical polyhedra and statistical inference	DANIEL Q. NAIMAN
Large-sample inference for log-spline models	CHARLES J. STONE
Consistency for ACE-type methods	ROBERT KOYAK
A risk bound in Sobolev class regression	GRIGORI K. GOLUBEV AND MICHAEL NUSSBAUM
On the density of minimum contrast estimators	IB M. SKOVGAARD
Marginalization and collapsibility in graphical interaction models	MORTEN FRYDENBERG
Fourier methods for estimating mixing densities and distributions	CUN-HUI ZHANG
Nonparametric estimation of a probability density on a Riemannian manifold using Fourier expansions	HARRIE HENDRIKS
Uniform asymptotic optimality of linear predictions of a random field using an incorrect second-order structure	MICHAEL STEIN
Data-driven bandwidth choice for density estimation based on dependent data	JEFFREY D. HART AND PHILIPPE VIEU
Asymptotic distribution of robust estimators for nonparametric models from mixing processes	GRACIELA BOENTE AND RICARDO FRAIMAN
Estimating a regression function	SARA VAN DE GEER
Achieving information bounds in non and semiparametric models	Y. RITOV AND P. J. BICKEL
Weakly adaptive estimators in explosive autoregression	HIRA L. KOUL AND GEORG CH. PFLUG
Canonical partial autocorrelation function of a multivariate time series	SERGE DÉGERINE
Improved confidence intervals for a normal variance	GLENN SHORROCK

## Short Communication

Edgeworth series for lattice distributions	JOHN E. KOLASSA AND PETER McCULLAGH
--	-------------------------------------

## Correction

Adaptive $L$ -estimation for linear models	STEPHEN PORTNOY AND ROGER KOENKER
--	-----------------------------------
