

THE ANNALS of PROBABILITY

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

Special Invited Paper

- Critical phenomena and universal exponents in statistical physics.
On Dyson's hierarchical model P. M. BLEHER AND P. MAJOR 431

Articles

- Gradient dynamics of infinite point systems J. FRITZ 478
The infinitely-many-sites model as a measure-valued diffusion
S. N. ETHIER AND R. C. GRIFFITHS 515
Hydrodynamical limit for the asymmetric simple exclusion process
ALBERT BENASSI AND JEAN-PIERRE FOUQUE 546
Markov additive processes I. Eigenvalue properties and limit theorems
P. NEY AND E. NUMMELIN 561
Markov additive processes II. Large deviations P. NEY AND E. NUMMELIN 593
Large deviations for processes with independent increments
JAMES LYNCH AND JAYARAM SETHURAMAN 610
Limit theorems in the area of large deviations for some dependent random
variables NARASINGA RAO CHAGANTY AND JAYARAM SETHURAMAN 628
A large deviations principle for small perturbations of random evolution
equations CAROL BEZUIDENHOUT 646
Joint continuity of the intersection local times of Markov processes JAY ROSEN 659
Brownian excursions and minimal thinness I KRZYSZTOF BURDZY 676
Recurrence and invariant measures for degenerate diffusions WOLFGANG KLIEMANN 690
An ideal metric and the rate of convergence to a self-similar process
MAKOTO MAEJIMA AND SVETLOZAR T. RACHEV 708
A ratio limit theorem for the tails of weighted sums HOLGER ROOTZÉN 728
Asymptotic expansions in the Poisson limit theorem A. D. BARBOUR 748
Noncentral limit theorems and Appell polynomials
FLORIN AVRAM AND MURAD S. TAQQU 767
Nonuniform estimates in the conditional central limit theorem
DIETER LANDERS AND LOTHAR ROGGE 776
Continuous lower probability-based models for stationary processes with bounded
and divergent time averages YVES L. GRIZE AND TERRENCE L. FINE 783
Partitioning general probability measures THEODORE P. HILL 804
A second-order asymptotic distributional representation of M -estimators with
discontinuous score functions JANA JUREČKOVÁ AND PRANAB KUMAR SEN 814
A unified approach to a class of optimal selection problems with an unknown
number of options F. THOMAS BRUSS AND STEPHEN M. SAMUELS 824
On the existence of the ergodic Hilbert transform R. JAJTE 831

Vol. 15, No. 2—April 1987
