

THE ANNALS *of* PROBABILITY

AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS

Articles

Joint orders in comparative probability	MICHAEL KAPLAN AND TERRENCE L. FINE	161
Conversion of semimarkov processes to Chung processes	ERHAN ÇINLAR	180
Estimation of a mixing distribution function	J. R. BLUM AND V. SUSABLA	200
First exit times from moving boundaries for sums of independent random variables	TZE LEUNG LAI	210
Probabilities of moderate deviations for some stationary ϕ -mixing processes	MALAY GHOSH AND GUTTI JOGESH BABU	222
The Hausdorff dimension of the range of the N -parameter Wiener process	LANH TAT TRAN	235
On the existence, uniqueness, convergence and explosions of solutions of systems of stochastic integral equations	PHILIP E. PROTTER	243
A ratio limit theorem for subterminal times	SAMUEL D. OMAN	262

Short Communications

On the concept of contiguity	W. J. HALL AND R. M. LOYNES	278
A note on the central limit theorem in Banach spaces	JOEL ZINN	283
Almost sure convergence of generalized U -statistics	PRANAB KUMAR SEN	287
Representations of invariant measures on multitype Galton-Watson processes	FRED M. HOPPE	291
On the decomposition of a subadditive stochastic process	ANDRÉS DEL JUNCO	298
A martingale inequality for the empirical process	JON A. WELLNER	303
On the individual ergodic theorem for K -automorphisms	J. R. BLUM AND J. I. REICH	309

Notes

Correction to "Radon-Nikodym derivatives of Gaussian measures"	L. A. SHEPP	315
Correction to "Asymptotic results for estimators in a subcritical branching process with immigration"	M. P. QUINE	318

Vol. 5, No. 2—April 1977
