

THE ANNALS *of* PROBABILITY

AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS

Special Invited Paper

Half a century with probability theory: Some personal recollections
HARALD CRAMÉR 509

Articles

A central limit theorem for the number of zeros of a stationary Gaussian process
JACK CUZICK 547

Existence and uniqueness of countable one-dimensional Markov random fields
HARRY KESTEN 557

Weak martingales and stochastic integrals in the plane
EUGENE WONG AND MOSHE ZAKAI 570

The law of large numbers and the central limit theorem in Banach spaces
J. HOFFMAN-JØRGENSEN AND G. PISIER 587

Functional central limit theorems in Banach spaces
D. J. H. GARLING 600

On r -quick convergence and a conjecture of Strassen
TZE LEUNG LAI 612

Uniform Tauberian theorems and their applications to renewal theory and first passage problems
TZE LEUNG LAI 628

A constructive renewal theorem
Y. K. CHAN 644

Short Communications

A multidimensional renewal theorem
THOMAS A. RYAN, JR. 656

Oscillations of continuous symmetric random walk
J. P. IMHOF 662

The enumeration of comparative probability relations
TERRENCE FINE AND JOHN GILL 667

A direct construction of the R -invariant measure for a Markov chain on a general state space
ESA NUMMELIN AND ELJA ARJAS 674

The Student t -distribution for odd degrees of freedom is infinitely divisible
EMIL GROSSWALD 680

A counterexample for Banach space valued random variables
J. KUELBS 684

An example concerning CLT and LIL in Banach space
NARESH C. JAIN 690

On a random walk between a reflecting and an absorbing barrier
ALESSANDRO BLASI 695

Note

Correction to "Note on a limit theorem"
D. A. DARLING 697

Vol. 4, No. 4—August 1976
