

# THE ANNALS *of* STATISTICS

*AN OFFICIAL JOURNAL OF*  
THE INSTITUTE OF MATHEMATICAL STATISTICS

## Articles

	PAGE
A Bayesian analysis of some nonparametric problems . . . . .	THOMAS S. FERGUSON 209
On the asymptotic shape of Bayesian sequential tests of $\theta \leq 0$ versus $\theta > 0$ for exponential families . . . . .	P. J. BICKEL 231
On some difficulties in a frequency theory of inference . . . . .	DONALD A. PIERCE 241
Minimax tests and the Neyman-Pearson lemma for capacities PETER J. HUBER AND VOLKER STRASSEN . . . . .	251
Estimating the scale parameter of the exponential distribution with unknown location . . . . .	JAMES V. ZIDEK 264
Weak convergence of the sample distribution function when param- eters are estimated . . . . .	J. DURBIN 279
The large-sample power of permutation tests for randomization models J. ROBINSON . . . . .	291
Limiting behavior of the extremum of certain sample functions P. K. SEN, B. B. BHATTACHARYYA AND M. W. SUH . . . . .	297
Inadmissibility of maximum likelihood estimators in some multiple regression problems with three or more independent variables A. J. BARANCHIK . . . . .	312
Approximating circulant quadratic forms in jointly stationary Gaus- sian time series . . . . .	LEON, JAY GLESER AND MARCELLO PAGANO 322
Adaptive policies for Markov renewal programs BENNETT L. FOX AND JOHN E. ROLPH . . . . .	334
Sequences converging to $D$ -optimal designs of experiments . . . . .	CORWIN L. ATWOOD 342
<b>Short Communications</b>	
Ferguson distributions via Pólya urn schemes DAVID BLACKWELL AND JAMES B. MACQUEEN . . . . .	353
Discreteness of Ferguson selections . . . . .	DAVID BLACKWELL 356
