

# THE ANNALS of STATISTICS

AN OFFICIAL JOURNAL OF  
THE INSTITUTE OF MATHEMATICAL STATISTICS

	PAGE
<b>Special Invited Paper</b>	
Prior distributions on spaces of probability measures. . . . .	THOMAS S. FERGUSON 615
<b>Articles</b>	
On the information contained in additional observations. . . . .	LUCIEN LE CAM 630
On a measure of aliasing due to fitting an incomplete model A. HEDAYAT, B. L. RAKTOE AND W. T. FEDERER	650
Random means. . . . .	GALEN R. SHORACK 661
Linear functions of order statistics with smooth weight functions STEPHEN M. STIGLER	676
Admissibility of translation invariant tolerance intervals in the lo- cation parameter case. . . . .	SAUL BLUMENTHAL 694
Posterior consistency for coefficient estimation and model selection in the general linear hypothesis. . . . .	ELKAN F. HALPERN 703
Stochastic approximation algorithms for constrained optimization problems. . . . .	HAROLD J. KUSHNER 713
Repeated games with absorbing states. . . . .	ELON KOHLBERG 724
Efficiency in subsampling. . . . .	LOUIS GORDON 739
Probability inequalities and errors in classification. . . . .	SOMESH DAS GUPTA 751
Bayesian classification: Asymptotic results. . . . .	C. P. SHAPIRO 763
A rational decision criterion, the iterated minimax regret criterion EARL NORDBROCK	775
<b>Short Communications</b>	
Stochastic interpretations and recursive algorithms for spline functions HOWARD L. WEINERT AND THOMAS KAILATH	787
The asymptotic sufficiency of a relatively small number of order sta- tistics in tests of fit. . . . .	LIONEL WEISS 795
The uniform convergence of autocovariances. . . . .	E. J. HANNAN 803
Admissibility in statistical problems involving a location or scale parameter. . . . .	LAWRENCE D. BROWN AND MARTIN FOX 807
On sample quantiles from a regularly varying distribution function LAURENS DE HAAN	815
A note on the asymptotic equivalence of sampling with and without replacement. . . . .	OLAV KALLENBERG 819
On the admissibility of the M.L.E. for ordered binomial parameters H. SACKROWITZ AND W. STRAWDERMAN	822
A rate of convergence of a distribution connected with integral re- gression function estimation. . . . .	GARY MAKOWSKI 829
Proof of conjectures about the expected values of the elementary sym- metric functions of a non-central Wishart matrix B. K. SHAH AND C. G. KHATRI	833
Generalized $h$ -statistics and other symmetric functions D. S. TRACY AND B. C. GUPTA	837
Remarks on measurable selections. . . . .	R. B. DARST 845
<b>Note</b>	
Acknowledgment of priority to "Random variables with independent binary digits". . . . .	GEORGE MARSAGLIA 848

---

Vol. 2, No. 4—July 1974
