<b>Articles</b>	
Descriptive statistics for nonparametric models	P. J. BICKEL AND E. L. LEHMANN
I. Introduction .....	1038
II. Location .....	1045
The behavior of robust estimators on dependent data	JOSEPH L. GASTWIRTH AND HERMAN RUBIN 1070
Convergence of empirical processes of mixing rv's on [0,1].	C. S. WITHERS 1101
Asymptotically efficient estimators for a constant regression with vector-valued stationary residuals.	ROLF K. ADENSTEDT 1109
Asymptotically robust tests in unbalanced variance component models	JAMES N. ARVESEN AND MAXWELL W. J. LAYARD 1122
A method of constrained randomization for $p_1^{n_1} p_2^{n_2} \cdots p_k^{n_k}$ factorials	RICHARD L. SCHWALLER AND KENNETH J. TIAHRT 1135
Resistance of balanced incomplete block designs.	BERNARD M. MOST 1149
A simple general approach to inference about the tail of a distribution	BRUCE M. HILL 1163
<b>Short Communications</b>	
A note on substitution in conditional distribution	MICHAEL D. PERLMAN AND MICHAEL J. WICHURA 1175
On a theorem of Morimoto concerning sufficiency for discrete distri- butions .....	L. BROWN 1180
Estimation of the variance of a branching process.	JEAN-PIERRE DION 1183
<b>Note</b>	
Correction to “Upper confidence and fiducial limits to the range of several means”	B. CAUSEY 1188
