

ANNALS OF PROBABILITY

Vol. 8

April 1980

No. 2

Articles

- Clustering and dispersion rates for some interacting particle systems on Z MAURY BRAMSON AND DAVID GRIFFEATH
- A strong law for some generalized urn processes
BRUCE HILL, DAVID LANE AND WILLIAM SUDDERTH
- Bounds, inequalities, and monotonicity properties for some specialized renewal processes MARK BROWN
- Limit distributions for the error in approximations of stochastic integrals HOLGER ROOTZÉN
- A limit theorem for the norm of random matrices STUART GEMAN
- Matrix normalization of sums of random vectors in the domain of attraction of the multivariate normal
MARJORIE G. HAHN AND MICHAEL J. KLASS
- Speeds of convergence and asymptotic expansions in the central limit theorem: a treatment by operators T. J. SWEETING
- Convergence rates for probabilities of moderate deviations for sums of random variables with multidimensional indices ALLAN GUT
- Limit theorems without moment hypotheses for sums of independent random variables R. J. TOMKINS
- Rates of escape of infinite dimensional Brownian motion
K. BRUCE ERICKSON
- A characterization of Vitali conditions in terms of maximal inequalities ANNIE MILLET AND LOUIS SUCHESTON
- Precision bounds for the relative error in approximation of $E|S_n|$ and extensions MICHAEL J. KLASS

Short Communications

- On Kamae's conjecture concerning the \bar{d} -distance between two-state Markov processes MARTIN H. ELLIS
- A new look at convergence of branching processes D. R. GREY
- Exponential moments of vector valued random series and triangular arrays ALEJANDRO DE ACOSTA
- Limit points associated with generalized iterated logarithm laws
LUISA TURRIN FERNHOLZ
- Almost sure limit points of maxima of stationary Gaussian sequences
H. VISHNU HEBBAR
- Zeros of the densities of infinitely divisible measures
PATRICK L. BROCKETT AND WILLIAM N. HUDSON
