Teletraffic Data

Heavy tail modeling and teletraffic data	SIDNEY I. RESNICK	1805
Discussion	ROBERT J. ADLER	1849
Discussion	JAN BERAN	1852
Discussion	WALTER WILLINGER AND VERN PAXSON	1856
Rejoinder	SIDNEY I. RESNICK	1866

Wavelet Methods

CART and best-ortho-basis: A connection	DAVID L. DONOHO	1870
Interpolation methods for nonlinear wavelet regression with irregularly spaced design	PETER HALL AND BERWIN A. TURLACH	1912

Multivariate Analysis

Monte Carlo sampling in dual space for approximating the empirical halfspace distance	GUENTHER WALTHER	1926
Abstract tubes, improved inclusion–exclusion identities and inequalities and importance sampling	DANIEL Q. NAIMAN AND HENRY P. WYNN	1954
Skewness for multivariate distributions: Two approaches	JEAN AVÉROUS AND MICHEL MESTE	1984
Zonoid trimming for multivariate distributions	GLEB KOSHEVOY AND KARL MOSLER	1998
Proof of the conjectures of H. Uhlig on the singular multivariate beta and the Jacobian of a certain matrix transformation	JOSÉ A. DÍAZ-GARCÍA AND RAMÓN GUTIÉRREZ JAÍMEZ	2018
A note on Tyler's modification of the MAD for the Stahel–Donoho estimator	URSULA GATHER AND TORSTEN HILKER	2024

Design

Optimal exact designs on a circle or a circular arc	HUAIQING WU	2027
On the construction and existence of orthogonal arrays with three levels and indexes 1 and 2	S. HEDAYAT, JOHN STUFKEN AND GUOQIN SU	2044

Inference under Dependence

Large-sample inference for nonparametric regression with dependent errors	P. M. ROBINSON	2054
Empirical likelihood methods with weakly dependent processes	YUICHI KITAMURA	2084

Sequential Methods

Bandit problems with infinitely many arms	DONALD A. BERRY, ROBERT W. CHEN, ALAN ZAME, DAVID C. HEATH AND LARRY A. SHEPP	2103
A note on optimal detection of a change in distribution	BENJAMIN YAKIR	2117
On guaranteed estimation of the mean of an autoregressive process	V. KONEV AND S. PERGAMENSHCHIKOV	2127
Improving the fully sequential sampling scheme of Anscombe–Chow–Robbins	WEI LIU	2164
