

THE ANNALS of STATISTICS

AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS

The 1977 Rietz Lecture

Bootstrap methods: another look at the jackknife	B. EFRON	1
--	----------	---

Articles

Optimum significance levels for multistage comparison procedures E. L. LEHMANN AND JULIET POPPER SHAFFER	27
Sequential tests for hypergeometric distributions and finite populations TZE LEUNG LAI	46
A nonlinear renewal theory with applications to sequential analysis II T. L. LAI AND D. SIEGMUND	60
Robustness of design against autocorrelation in time I: asymptotic theory, optimality for location and linear regression P. J. BICKEL AND AGNES M. HERZBERG	77
On the relation between fitting autoregression and periodogram with applications HIDEAKI SAKAI, TAKASHI SOEDA AND HIDEKATSU TOKUMARU	96
The asymptotic distribution of the supremum of the standardized empirical distribution function on subintervals D. JAESCHKE	108
The asymptotic distribution of the suprema of standardized empirical processes F. EICKER	116
Contributions to the theory of nonparametric regression, with application to system identification E. SCHUSTER AND S. YAKOWITZ	139
Testing for ellipsoidal symmetry of a multivariate density RUDOLF BERAN	150
Bayesian nonparametric estimation based on censored data THOMAS S. FERGUSON AND ESWAR G. PHADIA	163
On optimal median unbiased estimators in the presence of nuisance parameters J. PFANZAGL	187
Characterizations of estimatibility in the general linear model I. S. ALALOUF AND G. P. H. STYAN	194
On estimating the slope of a straight line when both variables are subject to error CLIFFORD SPIEGELMAN	201
Identification and selection procedures based on tests KLAUS J. MIESCKE	207

Short Communications

Bounds on expectations of linear systematic statistics based on dependent samples BARRY C. ARNOLD AND RICHARD A. GROENEVELD	220
Further remarks on robust estimation in dependent situations STEPHEN L. PORTNOY	224
Differential relations, in the original parameters, which determine the first two moments of the multiparameter exponential family RICHARD A. JOHNSON, J. LADALLA AND S. T. LIU	232

Vol. 7, No. 1—January 1979
