

THE ANNALS *of* STATISTICS

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

Articles

- One-step sparse estimates in nonconcave penalized
likelihood models HUI ZOU AND RUNZE LI 1509
- Discussion PETER BÜHLMANN AND LUKAS MEIER 1534
- Discussion XIAO-LI MENG 1542
- Discussion CUN-HUI ZHANG 1553
- Rejoinder HUI ZOU AND RUNZE LI 1561
- The sparsity and bias of the Lasso selection
in high-dimensional linear regression CUN-HUI ZHANG AND JIAN HUANG 1567
- “Preconditioning” for feature selection and regression in high-dimensional problems
DEBASHIS PAUL, ERIC BAIR, TREVOR HASTIE AND ROBERT TIBSHIRANI 1595
- Statistics of extremes by oracle estimation ION GRAMA AND VLADIMIR SPOKOINY 1619
- Dimension reduction based on constrained canonical
correlation and variable filtering JIANHUI ZHOU AND XUMING HE 1649
- Fence methods for mixed model selection
JIMING JIANG, J. SUNIL RAO, ZHONGHUA GU AND THUAN NGUYEN 1669
- Semiparametric detection of significant
activation for brain fMRI CHUNMING ZHANG AND TAO YU 1693
- Searching for a trail of evidence in a maze ERY ARIAS-CASTRO,
EMMANUEL J. CANDÈS, HANNES HELGASON AND OFER ZEITOUNI 1726
- Multiscale inference about a density LUTZ DÜMBGEN AND GÜNTHER WALTHER 1758
- Higher order semiparametric frequentist
inference with the profile sampler GUANG CHENG AND MICHAEL R. KOSOROK 1786
- General frequentist properties of the
posterior profile distribution GUANG CHENG AND MICHAEL R. KOSOROK 1819
- Confidence bands in nonparametric
time series regression ZHIBIAO ZHAO AND WEI BIAO WU 1854
- Locally adaptive estimation of evolutionary
wavelet spectra SÉBASTIEN VAN BELLEGEM AND RAINER VON SACHS 1879
- A wavelet whittle estimator of the memory parameter of a nonstationary
Gaussian time series E. MOULINES, F. ROUEFF AND M. S. TAQUU 1925
- Asymptotic equivalence for nonparametric regression with
multivariate and random design MARKUS REIß 1957
- A multivariate central limit theorem for randomized orthogonal array
sampling designs in computer experiments WEI-LIEM LOH 1983
