

BAYESIAN ANALYSIS

Lindley Prize Issue: Articles from the 2022 ISBA World Meeting

Data Augmentation for Bayesian Deep Learning	
..... Y. Wang, N. Polson, and V. O. Sokolov	1041
The Posterior Predictive Null	
..... G. E. Moran, J. P. Cunningham, and D. M. Blei	1071
Sequentially Guided MCMC Proposals for Synthetic Likelihoods and Correlated Synthetic Likelihoods	
..... U. Picchini, U. Simola, and J. Corander	1099
High-Dimensional Bayesian Network Classification with Network Global-Local Shrinkage Priors	
..... S. Guha and A. Rodriguez	1131
Semiparametric Functional Factor Models with Bayesian Rank Selection	
..... D. R. Kowal and A. Canale	1161
Nearest-Neighbor Mixture Models for Non-Gaussian Spatial Processes	
..... X. Zheng, A. Kottas, and B. Sansó	1191
Controlling the Flexibility of Non-Gaussian Processes Through Shrinkage Priors	
..... R. Cabral, D. Bolin, and H. Rue	1223
Inducing High Spatial Correlation with Randomly Edge-Weighted Neighborhood Graphs	
..... D. L. Cruz-Reyes, R. M. Assunção, and R. H. Loschi	1247

Regular Articles

Posterior Predictive Checking for Partially Observed Stochastic Epidemic Models	
..... G. Aristotelous, T. Kypraios, and P. D. O'Neill	1283
Bayesian Learning of Graph Substructures	
..... W. van den Boom, M. De Iorio, and A. Beskos	1311
Comparing Dependent Undirected Gaussian Networks	
..... H. Zhang, X. Huang, and H. Arshad	1341
A Bayesian Computer Model Analysis of Robust Bayesian Analyses	
..... I. Vernon and J. P. Gosling	1367
