

THE NINETEENTH ANNUAL MEETING OF THE
AMERICAN MATHEMATICAL SOCIETY.

THE Society this year took advantage of the favorable opportunity afforded by the meeting of the American Association for the Advancement of Science at Cleveland to hold its annual meeting at that central point and to consolidate with it the usual winter meeting of the Chicago Section. Such occasions are always enjoyable and contribute greatly to solidify the common interests of the entire Society. Our members recall with pleasure the April meeting held at Chicago in 1911, and the long series of summer meetings and colloquia which bring together mathematicians from all parts of the country in united fellowship.

The time chosen for the annual meeting was Tuesday to Thursday, December 31 to January 2. Tuesday afternoon was set apart for a joint meeting with Sections A and B of the Association, the Astronomical and Astrophysical Society of America, and the American Physical Society. Separate sessions of the Mathematical Society were held on Tuesday morning, Wednesday morning and afternoon, and Thursday morning. The attendance included the following sixty-two members:
