

## NOTES

The twenty-ninth summer meeting of the American Mathematical Society will be held at the University of Rochester, Rochester, New York, on Thursday and Friday, September 7 and 8. The regular sessions will be held in the Eastman Building. Kendrick Hall will be open for the accommodation of a limited number of men, and there are several hotels conveniently located. An excursion is being planned, and the usual joint dinner will be arranged with the Mathematical Association of America, which will hold its sessions immediately before those of the Society. Opportunity will be offered to those who desire to inspect the Research Laboratory of the Eastman Kodak Company, and the works of the Bausch and Lomb Optical Company.

Rochester is on the main line of the New York Central Railroad, and may be reached by several other roads.

Titles and abstracts of papers intended for presentation at the meeting should be in the hands of the secretary by August 10 in order to appear on the printed program. Papers received after that date can be presented only as time permits. This announcement replaces the preliminary notice issued in the past. The attention of members is invited to the fact that no other preliminary notice will be issued.

The editors of the *AMERICAN MATHEMATICAL MONTHLY* request us to announce that current issues of that journal have been long delayed not only on account of the general printing situation, which has affected all mathematical journals in America, but also still further on account of difficulties incident to transfer of editorial responsibility. These obstacles seem now to be overcome, and there is hope for gradual return to normal conditions.

A number of periodicals devoted wholly or in part to mathematics have recently been founded in various European countries. Among them are the following: *ABHANDLUNGEN AUS DEM MATHEMATISCHEN SEMINAR DER HAMBURGISCHEN UNIVERSITÄT*, edited by Professors W. Blaschke, E. Hecke, and J. Radon. *CHRISTIAAN HUYGENS, INTERNATIONAAL MATHEMATISCH TIJDSCHRIFT*, edited by Dr. F. Schuh and published by Noordhoff, at Groningen, Holland. *REVISTA MATEMATICA DIN TIMIȘOARA*, published under the auspices of the polytechnic school at Timișoara, Roumania, and devoted mainly to elementary mathematics and problems. *SPISY VYDÁVANÉ PŘÍRODOVĚDECKOU FAKULTOU MASARYKOVY UNIVERZITY* (memoirs published by the faculty of sciences of the Masaryk University), Brno (Brünn), Czecho-Slavia. *WARSZAWSKIE TOWARZYSTWO POLITECHNICHE, SPRAWOZDANIA I PRACE*, published by the Warsaw Polytechnic Society, and containing reports of meetings of that Society and memoirs on mathematical physics.

At the meeting of the American Association for the Advancement of Science at Toronto (December 27-31, 1921), Professor G. A. Miller was elected vice-president of Section A (mathematics) and chairman of that section. The University of Toronto conferred its honorary doctorate of
